A WARM WELCOME

I'm so glad you're here.

Choosing the person who will document one of the most meaningful days of your life is a deeply personal decision, and I'm honored you're considering me.

Before weddings, my career was built in advertising and visual storytelling, creating imagery where every frame needed intention, emotion, and impact.

Today I bring that same editorial vision into every wedding I photograph. My approach combines documentary authenticity with refined composition, cinematic light, and timeless imagery that feels as beautiful decades from now as it does today.

More than documenting how your wedding looked, my goal is to preserve how it felt.

If this vision resonates with you, I'd love to hear your story.

FOUNDER & CREATIVE DIRECTOR

candidly.*

BEHIND THE CAMERA

Meet Alonso

I'm Alonso Reyes, a destination wedding photographer and creative director based in Puerto Vallarta, Mexico.

My background in advertising taught me that every photograph should communicate emotion before anything else. That philosophy shapes the way I approach weddings today.

Rather than directing every moment, I create space for genuine emotion to unfold naturally, capturing each celebration with a balance of documentary honesty and editorial sophistication.

The result is imagery that feels effortless, elegant, and deeply personal.

HOW I WORK

The Approach

I Candid, never stiff

I document rather than direct. A few gentle prompts aside, I let your day unfold — so what you relive years from now is real, not posed.

II Editorial & cinematic

Magazine-quality light and composition, a film-inspired grade, and an eye trained on the details you spent months planning.

III Calm, on your day

Knowing the venues, the light and the local rhythm means I keep things easy and unhurried — so you can simply be present.
